

Inspection of Large Tanks

- Silotanks, Spray Dryers and Large Processing Tanks

- **Effective inspection of the entire surface for cracks, residues and mechanical defects**
- **Less than 24 hours, including repair of defects**
- **Focus on safety: Personnel, Product and Production Equipment**

Bactoforce has developed methods for safe and easy access to tanks and spray dryers of all sizes.

Inspection, repair and validation is managed with a minimum of downtime.

We recommend to include full-tank inspection as part of your dynamic inspection plan.
